

Mad SCIENCE
Summer Camps 2018
At Madison Community House- 25 Cook Ave., Madison, NJ

JUNE - JULY

BRIXOLOGY! (Lego Engineering) (Ages 7-11)
 June 18-22 1:00pm-4:00pm 5 day camp \$160

Mad Vs. Wild (Ages 5-10)
 July 5-6 9:00 am-12:00pm 2 day camp \$100

Invention-a-tion (Ages 5 - 10)
 July 5-6 1:00pm-4:00pm 2 day camp \$100

BRIXOLOGY! (Ages 7 - 10)
 July 9-13 1:00pm-4:00pm 5 day camp \$160

NASA Academy of Future Space Explorers (Ages 5 - 10)
 July 16-20 1:00pm-4:00pm 5 day camp \$160

Fairly Odd Forces (Ages 5 - 11)
 July 23-27 9:00 am-12:00pm 5 day camp \$160

Slimy Potions (Ages 5-10)
 July 23-27 1:00pm-4:00pm 5 day camp \$160

Are You Smarter Than a Mad Scientist? (Ages 5 - 10)
 July 30-Aug 3 1:00pm-4:00pm 5 day camp \$160

AUGUST

BRIXOLOGY! (Ages 7 - 10)
 August 6-10 1:00pm-4:00pm 5 day camp \$160

Spy Academy (Ages 5 - 10)
 August 13-17 9:00 am-12:00pm 5 day camp \$160

Invention-a-tion (Ages 5 - 10)
 August 13-17 1:00pm-4:00pm 5 day camp \$160

NASA Academy of Future Space Explorers (Ages 5 - 10)
 August 20-24 1:00pm-4:00pm 5 day camp \$160

Slimy Potions & Are You Smarter Than a Mad Scientist? (Ages 5 - 10)
 Aug 27-31 9:00 am-4:00pm 5 day camp \$300

Mad SCIENCE
Summer Camps 2018
At Madison Community House- 25 Cook Ave., Madison, NJ

CAMP DESCRIPTIONS

Brixology (Ages 7-11)

This new STEM program allows kids to step into the shoes of an engineer by using LEGO® bricks to build a different engineering-themed project every day; exploring engineering fields including mechanical, structural, aerospace, nautical, and bioengineering; using critical thinking, cooperation, and creative problem-solving to test and improve creations; and experiencing extended learning with a take-home project to reinforce each concept.

NASA Academy of Future Space Explorers (Ages 5-10)

Students set off on a voyage to discover the Solar System. We will explore topics such as Planets and Moons, Sun and Stars, Space Phenomena, Rocket Science and Space Travel, Space Technology and Living in Space! Our camp culminates with a rocket launch or two and each camper will make their own Mad Science Rocket to take home!

Mad Science Spy Academy (Ages 5-10)

Step into the shoes of a detective-uncover the science involved in evidence gathering and analysis. Get into gear with Agent undercover and learn what it takes to be successful in the spy world. Connect the dots using science to help solve a crime in a hands-on investigation of the science of sleuthing. Test your skills and learn how the pros do it through careful observation and techniques to handle evidence properly. Test your skills and learn how the pros do it through careful observation and techniques to handle evidence properly. Analyze clues and get hot on the trail of a culprit with the Crime Lab program. It's all here at the Mad Science Spy Academy!

Are You Smarter Than a Mad Scientist? (Ages 5 – 10)

Go ahead! Show us! We will explore the science of toys, learn some of the secrets of magic and decide what structures can stand against the forces of nature! Just when they thought they've had all of the awesome science they can handle, its time Mad Machines, bugs and electricity!

Slimy Potions Camp (Ages 5-10)

Join us in the depths of the Mad Science Laboratory where we harness the marvelous powers of liquids! Join us for a Mad "hands-on" experience as a Junior Mad Scientist! We'll create chemical reactions, learn to make bath fizzers, find out the secret to making chocolate taffy rolls and ooey gooey slime, create acid/base volcanoes and lots more!

Invention-ation (Ages 5 – 10)

Campers will overcome a series of challenges using basic materials, simple machines, tips from famous inventors and the most important of all - their mind. With a little bit of ingenuity, campers will create catapults and forts, construct working light sticks to bring home and a set of circuits with batteries and light bulbs. While Thomas Edison said invention is 10% inspiration and 90% perspiration, this camp is 100% FUN! Great take-home experiments as well!

Fairly Odd Forces! (Ages 5-10)

This camp is extremely awesome!! Learn all about electricity, its properties and how we use it every day!! Jump in and investigate inertia, gravity, and centripetal force. Let's join Bernoulli and Newton as we look into their work in aerodynamics and the properties of air!!! We will play Mad Science Air Hockey, Generate Vortex generators, and defy gravity as we levitate a ping pong ball!!! Don't crack as we come Under Pressure!! We might even show you some of the scientific secrets of weather and magnets!
