YOUR MISSION:

Learn what it takes to graduate MAD SCIENCE Spy Academy! Be a Detective and solve a Whodunit. Spy on your classmates and transmit Top-Secret intelligence. Take forensic evidence back to the lab, conduct scientific analysis, and more!

WWW.MADSCIENCE.ORG

Discover Detection:

Soil Analysis, Footprints, and Handwriting samples are just some of the clues you can collect! You'll be after your suspect in no time with your **FINGERPRINT FINDER!**

Sleuths On the Scene:

You'll not only test your attention to details in this class, but you'll analyze blood samples and set up a crime scene with the **SCENE SOLVER!**

Whodunit?:

One crime. Five suspects. Work together to learn about your culprit and determine whodunit! Identify the prime suspect with your **WHODUNIT KIT.**

Funky Forensics:

Our poor model skeletons have been broken and scattered! Lucky for us our Spy students can classify and recreate them! Crack the case with the **CASE STAMPER!**

Agent Undercover: Go on assignment with various cool Spy gadgets! Metal detectors, walkie-talkies, and take home the **UNDERCOVER OBSERVER** to spy on the person next to you!

Spy Academy: Top secret data needs to stay top secret! Learn to communicate in secret codes and infiltrate the codes used by your opponents! You and your classmates will be able to keep the communications open with the **SECRET CODE BREAKER!**

Science of Security: Locks, gates, lasers, alarms, put them all to the test and lock down your secret headquarters! Take home the **INSPECTI-KIT** to collect evidence at home!

Crime Lab: Identify chemicals found at a crime scene. Match a note to the pen that wrote it, and piece together clues to solve an international mystery! Spy from a safe distance with **SPYNOCLAR!**
